PRIVACY POLICY

1. PRIVACY POLICY OVERVIEW

This is the privacy policy of Retinaad Limited regarding the collection, use and disclosure of your personal information when you use the Application.

The protection of consumer privacy has always been a fundamental guideline in the development of Retinaad's RetiTrak technology and Retibazaar Marketplace. Our software is designed to provide insightful data by means of fully anonymous measurements.

RetiTrak is a tool for the verification and monitoring of advertising, sales and marketing activities including static OOH, digital DOOH, BTL, sales kiosks and assets.

RetiTrak's software employs advanced AI and Machine Learning Algorithms, not facial recognition technologies. Tracking data is generated from aggregate measurements of photo images: think of it as a "smart turnstile".

RetiTrak's software never collects any information that is uniquely associated to an individual; photographic images are assessed purely from visual cues. All video processing is performed locally in real time so that no human face recognition is required.

RetiTrak software is privacy protecting and complies with the requirements imposed by the General Data Protection Regulation (GDPR). We will not use or share your information with anyone except as described in this Privacy Policy.

We use your personal information for providing and improving the Application. By using the Application, you agree to the collection and use of information in accordance with this policy.
